

100 bar Optical Level Control Unit TK3 @ 230 / 115 VAC

SUITABLE FOR CO₂ SYSTEM

MAIN FEATURES

- **Direct connection to main voltage (230 / 115 VAC @50/60Hz) without the needing of external transformers.**
- **High reliability** ensured by absence of mechanical moving parts.
- **Sight glass and electronic LEDs** can be checked **on the same side** where is **more comfortable** to do **inspections**.
- Well consolidated steel with fused glass technology and the absence of seals ensures **no leakage** and **good chemical compatibility**.
- **Direct mounting onto 3/4 bolts compressors**
- **Easy maintenance of the coil** of the valve **and of the Electro-Optic sensor** that can be easily replaced **without emptying or depressurizing the plant**.
- **No need to use external pressure reduction devices**
- **Maximum compatibility with particular media** due to the possibility of mounting of different/custom valves
- 230 VAC /2A alarm relay output suitable for **direct connection in the security chain** of the system
- **Adapters suitable for various types of compressors**
- **Unit conform to directives:**

*2004-108-CE

*CEI EN 60204-1:2006

Application Description

The TK3 is designed to control the oil level in the compressor crankcase in order to avoid the compressor to run without oil and so improve its lifetime. TK3 monitors the oil level with the embedded electro-optic sensor and comprises a solenoid valve for oil filling and a relay output contact to give an alarm or directly stop the compressor (through a separate power relay). An interface with the system controller allow the regulator to gather info about working conditions and adapt the oil injections consequently.

HIGH PRESSURE OIL RETURN LINE SYSTEM EXAMPLE
WITH THREE COMPRESSORS PLUS ONE SATELLITE

Some other advantages of this solution:

- The TK3 is suitable to work with all the ΔP of the system so there is no need to use pressure reduction components.
- Reduction of the number of junctions in the circuit with less possibility of having leakages.
- Usage of less components (simplified circuit and easier warehouse management).
- Simplified Installation (cost savings in terms of installation time).
- No need for calibrations on the field.

100 bar Optical Level Control Unit TK3 @ 230 / 115 VAC

Technical Data

SUPPLY VOLTAGE	230 VAC \pm 10% @ 50/60Hz or 115 VAC \pm 10% @ 50/60Hz depending on model
SUPPLY CURRENT	Each TK3 require 50VA (with supplied solenoid valve).
ELECTRICAL CONNECTION	9.4mm Industry Standard Connectors / EN175301-803A Connector
OUTPUT SIGNAL	Contact free relay output NO and NC
RELAY OUTPUTS	Up to 230VAC @2A The Normally Open (NO) alarm contact (blue wire) is closed when power is applied to the TK3
HOUSING MATERIAL	Nickel plated steel
ENCLOSURE PROTECTION CLASS	IP 65
MEDIA TEMPERATURE	-40°C÷+85°C
AMBIENT TEMPERATURE	-40°C÷+60°C
MAX WORKING PRESSURE	100 bar (130 burst pressure)
MOPD	60 bar (higher values upon request)
OIL RETURN LINE	7/16 – 20 UNEF male
CABLE TYPE	PVC cable CEI 20-22. Working temp.: -20 ÷ +70 °C (fixed laying)

Mechanical Dimensions

Note. - Quotes in mm -. L and L1 can vary depending on the adapter (see TK3 Adapters Addendum)

NOTE. The info given onto this technical bulletin are to be intended as preliminary specs and can be subjected to any change without notice. Before proceeding with the selection of the device herein described contact Teklab.
